Practice Complaints Procedure

If you have a complaint or concern about the service you have received from the Doctors or any of the staff working in the Practice, please let us know. We operate a Practice Complaints Procedure as part of an NHS system for dealing with complaints. Our complaints system meets national criteria.

Who should I complain to?

When complaining about any NHS service, you should first complain direct to the person or organisation providing the service. If your complaint is about a Hospital, Scottish Ambulance Service or NHS24 you should speak to the complaints officer at the organisation.

If you don't feel comfortable doing this you should complain to the Scottish Public Services Ombudsman if the complaint is about Leith Walk Surgery or Lothian NHS Board if the complaint is regarding NHS services other than Leith Walk Surgery, contact details are at the end of this document.

How to complain

We hope that most problems can be sorted out easily and quickly, often at the time they arise and with the person concerned. If your problem cannot be sorted out in this way and you wish to make a complaint, we would like you to let us know **as soon as possible** – ideally, within a matter of days or, at the most, a few weeks – this will enable us to establish more easily what has happened.

If it is not possible to do this, please let us have details of your complaint:

- **Within 6 weeks of the incident that gave rise to the complaint but;**
- **Usually not later than 6 months from the incident that gave rise to the complaint**

A standard form C1 for filling in the details is attached. It is important that you give us a full account of any incident that may have occurred and if necessary the events leading up to it with respect to dates and if possible the names of the people concerned.

Complaints should be addressed to the Practice Manager. It is helpful to receive your complaint in writing because it makes it clear what you are concerned about. Alternatively you may ask for an appointment with the Practice Manager in order to discuss your concerns. They will explain the Practice Complaints Procedure to

you and make sure that your concerns are dealt with expediently. Please note that we keep strictly to the rules of medical confidentiality. If you are complaining on behalf of someone else, we will require them to fill in a Disclosure of Confidential Information Consent Form (Complaints), giving their informed consent for you to act on their behalf. All complaints will be investigated even when, under certain circumstances, it may be impossible for a patient to give the necessary consent.

What we will do

We shall acknowledge receipt of your complaint within three working days and we will endeavour to resolve your complaint within no more than 20 working days. However, on occasions when we are unable to keep within our recommended time limits – we shall keep you informed. If necessary we will make an appointment for you to discuss the matter further with either the Practice Manager or the Complaints Officer.

What if I'm not satisfied with the reply?

If you are not satisfied with the reply you can:

- Write again to the complaints officer to explain what you disagree with in the letter and why, or
- You can contact the Scottish Public Services Ombudsman with details of your complaint.
